

Dear all

We are sorry to inform you, that we have decided to cancel Tórshavn Darts Open and Faroe Islands Darts Open which were originally scheduled in March and later postponed for October.

The COVID 19 still has so much influence on travel restrictions, that it is impossible to say, which countries are open for travelling without quarantine in 2 months time, so we have come to that conclusion, that players cannot book flight tickets and be sure, that they will be able to play when they arrive here.

At the moment travellers from 8 European countries are not able to enter the Faroe Islands without 14 days quarantine, and that number might change suddenly, so the state of uncertainty is simply to high for staging international darts tournaments.

Best regards

Hans Eivind Olsen,
President
